

## Providing Waste Recycling Solutions to Protect the Environment and Great Lakes.

Usher Oil is a licensed liquid industrial waste treatment and used oil recycling operation located in Detroit, Michigan. Our company has been in the business of safely treating non-hazardous wastewater and recycling used oil since 1930. We are the largest family owned treatment plant in the Midwest.

Usher Transportation utilizes its fleet of 30 company owned vacuum tankers, vacuum trucks, gear pump jumbo tankers, stake and box trucks on the road daily to keep your facility and operations environmentally compliant. Usher Oil is chemically treating and recycling approximately 70,000,000 gallons of liquid industrial by-products annually.

All wastewater streams are physically and chemically treated in Usher Oil's state of the art on-site wastewater treatment plant before being discharged to the Great Lakes Water Authority. Reclaimed Oil from these streams is used for energy recovery.

We are committed to the needs of our customers and to the environment with outstanding service and competitive pricing. Usher Oil looks forward to being your partner for all of your environmental needs.

**FULL COMPLIANCE • TIMELY SERVICE • PEACE OF MIND**

## Services and Products

### Centralized Waste Water Treatment (CWT) Disposal Facility

- Full permits from GLWA, EGLE and EPA available on website.
